RE: Nonprofits are reliable, agile partners to protect Ontario

March 19, 2025

Dear Premier Ford,

Congratulations on your re-election as Premier of Ontario. The people of Ontario have put their trust in you and your government during the most uncertain of times.

In light of global social and economic events, we know the task at hand poses unprecedented challenges. As major changes take place around the world, the impact is felt here at home in Ontario. Ontarians are worried and struggling to meet their basic needs.

You cannot protect our province alone. Team Ontario includes 58,000 nonprofits and charities that operate for the public benefit in all corners of our province. We are your first line of protection for communities, especially in times of emergencies when fast and effective mobilization is needed. Remember, we did it in 2020. We are ready to partner with you again.

We are a powerful economic driver.

Nonprofits create jobs, activate volunteerism, and deliver essential programs and services that support the well-being of all Ontarians, including the most vulnerable in our communities. The [sector contributes](#) \$65 billion to our province's GDP, employing 844,000 people. With \$1.00 of investment, nonprofits generate up to \$2.18 in GDP impact. This magnitude is equivalent to many other industries in Ontario, such as manufacturing and automotive.

Behind these impactful numbers are the stories of thousands of nonprofits, supporting millions of Ontarians every day.

Whether it's the trade war, an affordability crisis, or the next emergency, the nonprofit sector is the first to know and respond. We deliver essential programs efficiently and effectively that sustain the quality of life for millions of hardworking Ontarians and their families. Whether we are fostering a sense of belonging through arts and sports programs or ensuring families have access to affordable housing, we are there for Ontarians when they need us most. Our work today carries forward the longstanding tradition of people coming together at the local level to recognize community challenges and solve local problems.

Preparing for the next emergency in Ontario.

Ontario's economic well-being and societal shifts are inextricably tied to the work of nonprofits. We are impacted in three ways: as employers, procurers of goods and services, and as organizations supporting people.

Nonprofits are working to strategically prepare for whatever is about to come next:

- Strategizing how we meet surges in demand.
- Re-activating pandemic-like infrastructure, such as community response tables, alongside local elected officials and the small business community.
- Reviewing our own procurement strategies to buy local and social, and encouraging Ontarians to do the same.

Work with us to get things done.

In the coming weeks and months, you will be called upon to formulate and implement momentous public policy that will have a profound impact on the ability of local nonprofits to improve lives, strengthen communities, and advance the public good. No two organizations are alike, but their common ground is more important to consider in public policy development.

As the government sets its vision to protect Ontario, we outline key areas of focus for the first 100 days, so your cabinet can work to foster a resilient, inclusive, and prosperous future for Ontarians.

In your first 100 days:

- Invest in the immense impact nonprofits have on the millions of Ontarians supported through our infrastructure.
- Ensure nonprofits are part of, and prioritized in, your Plan to Protect Ontario where over \$40 billion in new investments, loans, and other financial supports will be made available to mitigate impacts of the U.S tariffs on communities.
- Identify solutions with nonprofits who know what needs to be done in challenging times by setting up a roundtable with you, your team, and nonprofits to discuss how we can protect Ontario together.

Nonprofits across Ontario look forward to hearing from you.

Sincerely,

Nonprofits and charities in Ontario

L'honorable Doug Ford, Premier ministre de l'Ontario

Bureau du Premier ministre

Queen's Park, Toronto, ON, M7A 1A1

Objet : Les organismes à but non lucratif sont des partenaires fiables et agiles pour protéger l'Ontario

Le 19 mars 2025

Monsieur le Premier ministre,

Félicitations pour votre réélection en tant que Premier ministre de l'Ontario. Les Ontariennes et Ontariens vous ont renouvelé leur confiance dans une période d'incertitude sans précédent.

Face aux bouleversements sociaux et économiques mondiaux, nous sommes conscients que les défis à relever sont sans précédent. Alors que des changements majeurs surviennent à travers le monde, leurs répercussions se font sentir ici, en Ontario. Nos concitoyen.ne.s sont inquiets et peinent à subvenir à leurs besoins essentiels.

Vous ne pouvez protéger notre province seul. L'Ontario compte sur un réseau de 58 000 organismes à but non lucratif et organismes de bienfaisance qui œuvrent au service du public dans toutes les régions de la province. Nous sommes votre première ligne de défense pour soutenir les communautés, en particulier en situation de crise, lorsqu'une mobilisation rapide et efficace est essentielle. Rappelez-vous, nous l'avons fait en 2020. Nous sommes prêts à collaborer avec vous à nouveau.

Nous sommes un moteur économique puissant

Les organismes à but non lucratif créent des emplois, stimulent le bénévolat et fournissent des programmes et services essentiels qui assurent le bien-être de tous les Ontarien.ne.s, y compris les plus vulnérables. Le secteur contribue à hauteur de 65 milliards de dollars au PIB de la province et emploie 844 000 personnes. Chaque dollar investi dans nos organismes génère jusqu'à 2,18 \$ en impact économique, un niveau comparable à d'importantes industries de l'Ontario, comme le secteur manufacturier et automobile.

Derrière ces chiffres se cachent les histoires de milliers d'organismes qui soutiennent quotidiennement des millions d'Ontarien.ne.s.

Qu'il s'agisse de faire face aux tensions commerciales, à la crise de l'accessibilité financière ou à une nouvelle situation d'urgence, le secteur à but non lucratif est toujours en première ligne. Nous livrons des programmes essentiels avec efficacité, garantissant ainsi une meilleure qualité de vie pour des millions de travailleuses et travailleurs et leurs familles. Que ce soit en favorisant un sentiment d'appartenance grâce aux arts et au sport, ou en assurant l'accès au logement abordable, nous sommes présents pour les Ontarien.ne.s lorsqu'ils en ont le plus besoin. Notre

travail perpétue la tradition bien ancrée des communautés qui s'unissent pour identifier et résoudre les défis locaux.

Préparer l'Ontario aux prochaines crises

Le bien-être économique et social de l'Ontario est inextricablement lié aux actions des organismes à but non lucratif. Nous sommes impactés de trois manières : en tant qu'employeurs, en tant qu'acheteurs de biens et services, et en tant qu'organisations de soutien aux personnes.

Nos organismes travaillent à anticiper les défis à venir grâce aux actions suivantes :

- Élaboration de stratégies pour répondre à l'augmentation de la demande.
- Réactivation des infrastructures mises en place durant la pandémie, comme les tables de concertation communautaires, en collaboration avec les élu.e.s locaux et les petites entreprises.
- Révision de nos stratégies d'approvisionnement pour favoriser l'achat local et social, et inciter les Ontarien.ne.s à faire de même.

Travaillons ensemble pour obtenir des résultats

Dans les semaines et mois à venir, vous serez amené à formuler et mettre en œuvre des politiques publiques majeures qui auront un impact déterminant sur la capacité des organismes locaux à améliorer la vie des citoyen.ne.s, à renforcer les communautés et à promouvoir le bien commun. Chaque organisme a ses particularités, mais leur contribution commune mérite une attention particulière dans l'élaboration des politiques publiques.

Alors que votre gouvernement établit sa vision pour protéger l'Ontario, nous proposons des priorités pour les 100 premiers jours de votre mandat afin de bâtir un avenir résilient, inclusif et prospère pour l'ensemble des Ontarien.ne.s :

- Investir dans l'impact considérable des organismes à but non lucratif, qui soutiennent des millions d'Ontarien.ne.s grâce à leur infrastructure.
- Intégrer les organismes à but non lucratif dans votre Plan pour protéger l'Ontario, où plus de 40 milliards de dollars en nouveaux investissements, prêts et autres soutiens financiers seront déployés pour atténuer l'impact des tarifs américains sur nos communautés.
- Mettre en place une table ronde entre votre équipe et les organismes à but non lucratif afin d'identifier ensemble les solutions nécessaires en période de crise.

Les organismes à but non lucratif de toute la province espèrent pouvoir échanger avec vous prochainement.

Sincèrement,

Les organismes à but non lucratif et de bienfaisance de l'Ontario
